

PENDER & PEONY'S

Christmas Garland Kits

Create that special holiday magic with a cascading Christmas garland for your mantel, entry, or table.

Katherine has designed two looks for 2024: a ***Jolly Blossoms*** style mixing pink and red with abundant florals and a **Gingerbread Forest** style in blue that plays on fairytales and frosted treats. Both inspire a traditional Christmas feel.

Customization options include florals and ribbon. You'll receive the garland kit in the mail in November ready to be assembled and hung. Each kit will include a guide to putting the garland together and ideas to customize it for your home.

The reviews are in...

I loved my garland kit! Even my mother noted the garland piece looks very expensive and she is one of those opinionated types. The materials are quality that I myself wouldn't be able to easily find on my own. I found that kit easy to setup on my own and storage isn't a concern because you provided that nice protective bag. What's also a plus for me is you can easily update the look over the years by just swapping out the ribbon.

I'm sorry to keep on gushing, but you put so much work into the garland kits, is why it went together so fast. And the bag to store it in! I felt weird about the money (which is insane, I just got used to making a \$ look like \$\$\$) and when I could actually afford nicer. I just never did until recently. But! So worth it. Thank you again. ★★★★★
